Education

Bharati Vidyapeeth College of Engineering, Navi Mumbai

2024 – 2028

Bachelor of Engineering in Computer Engineering

CGPA: 7.94

Experience

Innovexis

January 2026 – April 2026

Web Development Intern

- Developed and enhanced the Signly platform by creating responsive UI sections, optimizing layouts, and integrating dynamic frontend functionalities using React.js and Tailwind CSS.
- Contributed to SkillBridge by building reusable frontend components, improving user flow, and implementing clean user interfaces.
- Worked on CloudNest by designing scalable frontend pages, integrating REST APIs, and improving overall responsiveness and user experience across devices.
- Collaborated with the team to maintain clean code architecture, improve UI consistency, and ensure smooth deployment workflows.
- Focused on performance optimization, modern design practices, and creating visually appealing user interfaces with efficient state management.

Projects

Signly – Digital Document Signing Platform | *React.js, Tailwind CSS, TypeScript*

- Developed responsive and modern UI components for the Signly platform using React and Tailwind CSS.
- Built reusable frontend components and optimized layouts to improve scalability and maintainability across pages.
- Enhanced website responsiveness and accessibility.

SkillBridge – Freelancing Platform | *React.js, Express.js, Node.js*

- Designed and developed interactive frontend sections for the SkillBridge freelancing platform with clean and user-friendly UI/UX practices.
- Created reusable UI elements and improved navigation flow for freelancers and clients to enhance accessibility and user engagement.
- Collaborated on integrating APIs and maintaining consistent design systems throughout the platform.

CloudNest – Cloud Storage & Management Platform | *React.js, Tailwind CSS, TypeScript*

- Developed scalable frontend pages and dashboards for CloudNest using modern React architecture.
- Integrated REST APIs to manage dynamic data rendering and improve overall application functionality.
- Focused on responsive design, optimized UI performance, and cross-device compatibility.
- Improved component structure and frontend maintainability using reusable design systems and clean coding practices.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend Development: Node.js, Express.js

Databases / ORM: MongoDB

Developer Tools: VS Code, Git, GitHub

Positions of Responsibility

- **Frontend Developer Intern** – Innovexis

Achievements

- Secured 5th Rank in CodeClash 2025
